DoS / DdoS

Description

The scale of decommissioning attacks, which is an easy to organize, difficult to prevent and effective type of attack, is increasing day by day. Detailed information about DoS/DDoS attacks will be provided and necessary techniques will be conveyed to minimize the impact of these attacks on the organization.

Delegates will learn

- Understanding DoS/DDoS Attacks
- DoS/DDoS Attack Types
- Measures to be Taken Against DoS/DDoS Attacks
- Advanced Defense Methods against DoS/DDoS Attacks

Outline

Understanding DoS/DDoS Attacks

- Causes of DoS/DDoS Attacks
- Date of DoS/DDoS attacks
- Anatomy of DoS/DDoS attacks

DoS/DDoS Attack Types

- Attacks on protocols
- Attacks on apps
- DoS attack types

- DDoS attack types

Measures to be Taken Against DoS/DDoS Attacks

- Technical measures to be taken
- Establishing an active stance against attacks
- Defense objectives and achievement measures
- Deciding on the right defense approach

Advanced Defense Methods against DoS/DDoS Attacks

- Determination of general defense strategy
- Prepare to attack
- To intervene while the attack is in progress
- Improving your network against DoS/DDoS attacks
