

Agile & Scrum Foundations

Duration: 2 Days · **Training format:** Virtual Classroom / Online

Description

The Agile foundation training is the perfect start to your Scrum implementation. During this two-day in-house programme, we will not only cover the basics of Scrum, but we will also offer you concrete guidelines to structure the Scrum implementation for your team, department and/or organisation with the help of an implementation backlog.

Delegates will learn

- Over the 2 days, students are introduced to the mechanics of Scrum, gaining insights into overcoming complexity, dealing with team based collaboration and self-organization as essential elements in mastering Scrum. Students work together as a team in a series of Sprints to build a software application, thereby facing real-life problems. The mechanics, roles, and principles of Scrum are leveraged during the exercises. From its emphasis on the practical application of Scrum, the course exposes common missteps and misunderstandings so students grow a higher awareness of the associated symptoms. The course provides prescriptive guidance to avoid going off track and keep Scrum healthy.
- Professional Scrum Foundations is excellent training for teams and anyone wanting to experience the way of working in Scrum. The course also provides the foundation of knowledge needed for role-focused training for Product Owners, Scrum Masters and Developers.

Audience

Agile Scrum Foundations course is the perfect introduction, reboot or refresher to Scrum. This course is for teams or anyone wanting to experience the Scrum way of working. PSF provides the base knowledge needed for anyone interested in taking role focused trainings.
